

An endangered Gecko lizard

Rescued by student with help of wild conservator on 7th June, 2022

Organized by

IQAC, Samaguri College

Today, on 7th June, 2022 an endangered species of Tokay Gecko lizard has been rescued by wild conservator and handed over to the forest department. One of the students from 2nd sem of Assamese department helped the rescuer to rescue this rare type of species. It is a nocturnal native to Asia and some specific Islands. This species is in danger as it is poached for the medicinal trade in rest of Asia. The Tokay gecko has become a threatened species.
